For your amusement and you didn't get this from me.

What I find annoying is that they both cc'd that clown from Virginia Tech.

Subject: LCR Information

Warren,
Samir,

I want to keep you all in the loop with the most recent information surrounding lead and copper concerns in the City. Enclosed please find a copy of a recent letter written from US Congressman Dan Kildee to the head of the EPA and the MDEQ. I have also included the response from Dan Wyatt of MDEQ.

I would like to continue moving forward as quick as possible with the final design for corrosion control and to have as much information as possible on our next steps. I have reached out in the last few weeks to two EPA lead experts, Michael Schock and Darrin Lytle and I have invited them to join our Technical Advisory Team. I am currently waiting to hear back from them on when they are available to come to Flint.

I will look forward to having you all involved when they arrive.

Thank you,

--
